

Product Manager

NeuraLight is hiring!

We are seeking a highly skilled and motivated Product Manager to join us on our mission to make a significant impact on the lives of millions affected by neurological diseases.

As a Product Manager at NeuraLight, you will play a pivotal role in shaping our products, contributing to the advancement of our mission, and working in a vibrant, fast-paced environment that promotes continuous learning and professional growth.

This role will be more **inbound** focused.

About the Role:

- Take an active role as a part of NeuraLight's product team, supporting the development of one of our key products.
- Identify and evaluate new product opportunities, translating them into actionable business requirements using data analysis and market research.
- Manage the product life cycle as a part of the company's roadmap, ensuring excellent execution and successful deployments.
- Collaborate with cross-functional teams, including R&D, clinical affairs, regulatory, and operations, across all stages of product development and deployment.

About You:

- Aligned with NeuraLight's core values (see below).
- A team player with a "Hands-on" approach and a strong sense of ownership
- 2+ years of experience in software product management, with a proven track record of leading software products from conceptualization to production.
- Excellent written and oral communication skills in both English and Hebrew.
- Advantage: Previous experience in early-stage startups.
- Advantage: Previous experience in AI-based software products.

- Advantage: Previous experience in the healthcare industry.

About NeuraLight:

At NeuraLight, we're on a mission to transform the lives of billions affected by neurological disorders. Our AI platform, driven by proprietary Machine Learning algorithms automatically extracts digital oculometric markers from facial videos captured with a standard smartphone or webcam. This accelerates drug development, enhances monitoring and refines precision care. With \$30.5 million raised, and support from neurologists and Nobel laureates, we're redefining neurological care - join us on this impactful journey.

Our Core Values:

We are on an urgent mission

- Both as a team and as individuals we are driven by a mission to transform neurology and save and improve people's lives.
- The stakes are high, and we understand we need to take risks and be bold. We avoid stagnation, make decisions as soon as possible, and do our best to make progress and deliver quickly and effectively.

We are psychologically safe

- We encourage everyone to speak up, be vulnerable, and take initiative with ideas, questions, concerns, or mistakes.
- We respect everyone and take their thoughts and opinions seriously.
- We celebrate each other as individuals and professionals, we are an empowering team.

We enjoy the ride

- We believe the journey is no less important than the goal, so we do our best to enjoy the ride.
- We are proud of what we do and celebrate our successes, we exude optimism in the face of the serious and long-haul challenges we face.
