

## Full-Stack Technical Lead at NeuraLight

### Join Us!

NeuraLight is on the hunt for a talented, passionate, and ambitious Full-Stack Technical Lead to join our engineering team.

Help us revolutionize the lives of billions affected by neurological disorders.

### What You'll Do:

- **Develop** precision-driven eye movement measurement products with standard web cameras and specialized hardware.
- **Architect and build** user interfaces and end-to-end flows for both medical personnel and patients, on PCs and mobile devices.
- **Shape solutions** by collaborating with product management and UI designers.
- **Contribute to our engineering culture** in a collaborative environment with frontend engineers, backend engineers, and researchers.

### About You:

- **Experienced:** 7+ years in software development.
- **Proficient:** Strong skills in TypeScript/JavaScript and React.
- **UX Enthusiast:** Passionate about product and user experience.
- **Reliable:** Experienced in maintaining production environments.
- **Team Player:** Can-do attitude with a strong sense of ownership.
- **Bonus Skills:** Experience in Python and AWS or other major clouds.
- Aligned with our **core values** (see below)

We are centrally located by Sarona Market on Menachem Begin Road in Tel Aviv and have a hybrid work policy.

Join us at NeuraLight and be part of a forward-thinking team dedicated to making a real impact.

## About NeuraLight:

At NeuraLight, we're on a mission to transform the lives of billions affected by neurological disorders. Our AI platform, driven by proprietary Machine Learning algorithms automatically extracts digital oculometric markers from facial videos captured with a standard smartphone or webcam. This accelerates drug development, enhances monitoring and refines precision care. With \$30.5 million raised, and support from neurologists and Nobel laureates, we're redefining neurological care - join us on this impactful journey.

## Our Core Values:

We are on an urgent mission

- Both as a team and as individuals we are driven by a mission to transform neurology and save and improve people's lives.
- The stakes are high, and we understand we need to take risks and be bold. We avoid stagnation, make decisions as soon as possible, and do our best to make progress, and deliver quickly and effectively.

We are psychologically safe

- We encourage everyone to speak up, be vulnerable and take initiative with ideas, questions, concerns or mistakes.
- We respect everyone and take their thoughts and opinions seriously.
- We celebrate each other as individuals and professionals, we are an empowering team.

We enjoy the ride

- We believe the journey is not less important than the goal, so we do our best to enjoy the ride.
- We are proud of what we do and celebrate our successes, we exude optimism in face of the serious and long-haul challenges we face.
